

Dear Parents,

During this week we'll cover the following topics:

### Maths

Counting on and back.

Number line.

Comparing numbers.

Rounding.

### Science

Chapter one: What is matter?

### Quick reminder

- It will be very beneficial to your child to review the time tables on a daily base, it will help them feel more comfortable when they are introduced to long multiplication and long division.
- Kindly make sure if there is any change in how your child will leave school to directly communicate with the administration (Ms.Noheir) by calling or sending a letter.

Learning is a treasure that will follow its owner everywhere!
